This should be on the TCEQ FTP site already. But I've attached it here just in case.

File Name = CC_SampleSites.zip

Description of File=

This is a GIS file that was created years ago and kept updated. It is a list of all the water quality sample sites in the city.

I don't think we are using the same ftp folder

Can you send that layer directly to Janine?

The 3 zones should be in a zip folder on tceq ftp. Search for words 'online' or 'zone' in the file name. I'm a few minutes away from office. Will resend the data if you havent found it by the time i get there

Hello Eric,

This data should be on the TCEQ FTP. Was Susan able to get you access?

We cannot find the zones and sample sites on the ftp. Can you make sure my account has access. Or send me the ftp directory URL?
